

Providing the news is a public service, not "commerce". We cannot have big companies controlling too many news outlets, if we want to have a free and vigorous press and TV in this country. Please do NOT deregulate the media! 35% is already a huge chunk of the market, to have any more would be a true monopoly! Our country deserves better than to be sold to the highest bidders. If you deregulate, you may be contributing to America's decline.
